ONE DOLLAR A YEAR

KILLED, 50 INJURED

Awful Electric Storm Sweeps Camp of Soldiers.

FIELD HOSPITAL IS CROWDED

Unprecedented Storm of Lightning and Wind Strikes the Encampment of the Pennsylvania National Guard With Awful Results.

Gainesville, Pa., July 25.—In an all-night search throughout Camp Hays, where the 10,000 men of the national guard of Pennsylvania have been in camp for a week and which was on Thursday night visited by a terrific electrical and windstorm, shows that three soldiers were struck dead by lightning and that nearly a half hundred other persons were injured.

Those killed were:
Corporal O. Milton Garver, company E, Tenth regiment, Uniontown.
James A. Barbe, company E, Tenth regiment, Waynesburg.
Private Clyde Morrison, company B, Sixteenth regiment.

The dead were members of the second brigade.
The cots of the hospital tents are filled with the injured, some of whom are women and children who had been visiting the camp.

Governor's Tent Blown Down.

The tent which Governor Stuart had been occupying during the week's encampment was blown down by the terrific wind and the governor and his guests were buried under the ruins. With the governor were Charles M. Mann, of the state railroad commission; Colonel Gould, of the First regiment, Philadelphia, and Captain P. H. Wheeler, formerly of the First regiment. In the tent adjoining that of the governor, were the wives of Governor Stuart, Miss Cora Stuart, of Harrisburg, and Mrs. Lechman, of Philadelphia, and Mrs. Charles M. Mann, of Philadelphia.

It was with the greatest difficulty that the tent they occupied was kept from collapsing. The tall iron flagpole in front of the tents of Governor Stuart and General Wiley was struck by lightning, stunning several members of the governor's staff.

Barbe was sitting in his tent with another soldier when he was enveloped in a blue flame following a terrific crash and he fell dead. The other soldier, Paul Neela, was only stunned by the bolt.

In the case of those killed, the new puttees furnished just before the storm went into camp, were torn from their limbs, the steel rib being exposed. Some of the officers believe the storm attracted the lightning.

Storm Came Suddenly.
The storm broke suddenly. The rain came with almost cyclonic force, the lightning was the most severe in years. Although the hour was late, the camp still contained many soldiers.

The second brigade is situated in the west field of the camp ground and every company street was soon a running stream. Everywhere tents were being blown and lightning bolts were striking in many places. For a time confusion reigned, but as the storm passed off, the commanders of the several regiments in the second brigade brought about order and began a systematic search for injured soldiers. As rapidly as they were found they were removed to the hospital tent and given medical attention.

The trolley line between the camp and the town was put out of service by the storm, and many of the soldiers were compelled to spend the night in the Y. M. C. A. tent. Among them were women and children, who almost went into hysterics during the height of the furious storm.

Tents Were Blown Down.

More than 300 tents were blown down. Of the 56 tents of Battery G, only eight remained standing. The soldiers who were in the guard house when it was killed. The bolt struck the companions in a heap, so that they were all killed. Then it struck along the ground thirty feet to the west of Morrison, striking the

tent and stunning Morrison, Christler and their wives. It tore Christler's coat into shreds and twisted his horn into a shapeless mass. An instant later fifty yards away, another bolt struck Barbe, killing him instantly. Private Morrison was standing at the hospital tent when he was struck. There were seven or eight patients in it, sufferers from the heat. During a storm Tuesday night Lieutenant Paul K. Morley, of the First regiment, was killed by lightning while on regimental duty.

A GAMBLER'S VENDETTA.

Mysterious Persons After this Sporting Element in Chicago.

Chicago, Ill., July 25.—Bomb No. 18 in the gamblers' vendetta series was exploded Thursday night in the rear of James J. Corbett's saloon, 288 State street.

The bomb was placed under the saloon in the rear of the basement which is used as a storeroom. Planks two inches thick were torn from the walls and several hundred dollars' worth of bottled beer goods that had been stored in the basement was broken.

The explosion caused excitement among the guests of the Strauss hotel above the saloon. The bomb had been placed on top of a jug and when it exploded, pieces of the jug were blown into the walls of the building.

Two rooms of the hotel are said to have been used for a poker game, and the bomb evidently was directed toward the keepers of the gambling house as Corbett is not interested in the hotel.

The explosion was the third similar attempt that had been made against the gamblers in a month.

The police never have been able to find the persons responsible for the outrages.

CONSUL CORRECTS REPORT.

No Likelihood of War Between Honduras and Nicaragua.

Mobile, Ala., July 25.—According to advices received here from Spanish Honduras by Hon. Ernesto Fletes, consul from that country to this port, there is now no insurrection in his country nor is there any likelihood of there being any war between Honduras and Nicaragua.

Consul Fletes declares that all the talk about war between the two countries is a conjecture of some one's brain and that it has no reality in fact. Speaking of the matter, he exhibited a dispatch from the minister of the interior of Honduras, Mr. E. C. Fialla, which was dated July 14. He explained that this dispatch had come via Porto Cortez and from thence by steamship to this port, hence its statement that there was a revolution in Gracias and Choluteca, which towns were occupied by the insurgents.

FREAK OF ALLEGED MANIAC.

Startled Chicago Police by Walking on Telephone Wires.

Chicago, July 25.—A maniac who performed weird gymnastic feats on a telephone pole and walked the wires between poles with the casual air of a man on the street, kept a squad of policemen busy for an hour Friday. A company of firemen finally induced the crazed performer to mount a ladder which, once he was on it, was quickly lowered.

The prisoner proved to be Constantine Bostells, an automobile mechanic. Bostells, according to his friends, has been a student of aerial navigation, which is thought to account for his having chosen the telephone wires for his performance.

Aeroplane Recovering from Injuries.

Lemans, France, July 25.—The report that the condition of Wilbur Wright, the American aeroplane, who was recently scalded, was so serious as to necessitate an operation, is unfounded. Mr. Wright is making good progress towards recovery and is able to work continuously on the plans of his aeroplane.

Craft's Slayer Suicides.

Louisville, Ky., July 25.—The body of Philip B. Hans, who shot and killed Arthur W. Craft and badly wounded Mrs. Craft, has been found lying near the highway nearly a mile from St. Matthews, a suburb. Hans had shot himself through the head.

QUEBEC CELEBRATES

Three Hundredth Anniversary of City's Founding.

HISTORIC PAST REPRODUCED

Magnificent Spectacle Witnessed in the Ancient City, at which the Prince of Wales Was the Central Figure—Vice President Fairbanks Present.

Quebec, July 25.—The prince of Wales was the central figure Thursday in the magnificent spectacle reproducing Quebec's historic past and ushering in the three hundredth anniversary of the founding of the city by Champlain.

Aside from the spectacular features of the event it was the occasion for a notable exchange of addresses between Vice President Fairbanks and the prince of Wales, in which each spoke of the existing relations between the United States and Great Britain, and the prince delivered a message of good will to the American government.

An enormous crowd filled the Place

CHAMPLAIN MONUMENT.

des Armes, fronting the Champlain monument, where the exercises were held. Here the prince received the addresses of the American and French representatives, the mayor of Quebec, and finally Champlain himself, reproduced as in the days of old, coming from the mimic reproduction of his original ship, the Don de Dieu, with some 5,000 followers, representing every phase of old France in Canada. Thursday night the city was ablaze with lights. From the citadel the prince looked across the St. Lawrence at a gigantic display of fireworks on the heights of Levis, showing in fiery outlines the portraits of King Edward, the Falls of Montmorency, and the battle of Wolfe and Montcalm.

Germans Applaud American Singers.

Stuttgart, July 25.—The Brooklyn Alceon Choral society gave a concert Thursday night in the Stadthalle, the largest concert hall in Germany, every seat being filled. Each and every number on the program was heartily applauded. Attorney List, of Roulingen, in behalf of the German Saengerbund, of which he is the president, announced that the Brooklyn Alceon Choral society had become its first American member. The German Saengerbund is composed of all the singing societies of the empire. Herr List handed Dr. Fischer, president of the society, the diploma of membership.

Edmondson Goes to Washington.

Washington, July 25.—Robert Edmondson, of the Galveston (Texas) baseball club, and formerly with the Washington Club, has been signed by Manager Cuthbert and will join the club at St. Louis.

WATSON OPENS CAMPAIGN.

Large Audience Hears Populist Candidate in Macon.

Macon, Ga., July 25.—Hon. Thomas E. Watson, populist nominee for president, opened his campaign before a large audience in the Grand opera house Thursday night. He spoke more than two hours, his attention being given largely to the alleged faults and needs of the democratic party in the south, and to an attack on William J. Bryan, the democratic nominee for president.

Mr. Watson asked for Georgia's electoral vote, and said that, if necessary, he would give them to Bryan to defeat Taft.

The house was well filled, the large number being the voters of the county. Many people came from a distance. Mr. Watson was received at the depot Thursday morning by a large party of friends, and at the Brown House during the day he received numbers of prominent callers. The speaker was introduced by Hon. W. A. Huff in a short, but well chosen address.

In referring to the democratic platform adopted at Denver, Mr. Watson said:

"This Denver platform is not a democratic platform, unless the mere saying of W. J. Bryan constitutes democracy. Judged by the platform of the party from its very foundation, down to the days of Buchanan, it is an insult to historic democracy to call Bryan's patchwork platform a democratic document. What right has he to demand the support of those citizens, who are democratic in principle, upon such a platform as this?"

"The platform upon which I stand represents the democracy of Jefferson and Jackson, applied to modern conditions. Put into law, it would give back to our country the prosperity it enjoyed in the decade preceding the civil war. If the south will follow me in this campaign, revolting against the odious conditions under which she is expected to serve Mr. Bryan, she will at once resume her old place in the sisterhood of sections. She has no importance now, politically, because she has no independence. Being a democratic asset, which can be counted on with certainty, nobody regards her. Let the south become politically uncertain, and she will again become politically great."

A NERVOY ROBBER.

Long Bandit Tries To Hold Up a Train but is Bailed.

Chicago, July 25.—A dispatch to the Tribune from Appleton, Wis., says:

A nervy robber tried to hold up the Ashland and St. Paul northbound train on the Chicago and Northwestern railroad Thursday near Appleton Junction, a mile and a half north of here. The train had just passed the junction when a masked man climbed over the tender into the cab of the engine from the platform of the blind baggage, where he had been hiding.

Revolver in hand, he commanded the engineer, Louis Wendell, to stop his train, uncouple his engine, and run up the track a short distance.

Engineer Wendell, covered as he was by the man's revolver, was about to comply when Gustave Pahl, his fireman, hit the highwayman a heavy blow, knocking the revolver from his hand. Pahl was seeking for another blow when the man jumped from the doorway while the train was running twenty miles an hour.

It is the theory of the trainmen here that there was a large amount of gold on the train from Chicago to St. Paul and that it was this treasure the man was after. A posse is searching for the highwayman.

Press Convention Adjourns.

Birmingham, Ala., July 25.—The annual convention of the Alabama Press association came to an end on Thursday, officers being elected as follows: President, John C. Lawrence, of Union Springs; vice president, C. G. Frazier, of Guntersville; secretary, Jacob Pepperman, of Montgomery; treasurer, Frank Crichton, of Oxton. Citizens of Bessemer chartered a special train to the Atlanta, Birmingham and Atlantic railroad for an excursion, starting Friday morning for Brunswick, Ga., and to the sea.

DISASTER IN TUNNEL

Twenty-Five Workmen Drowned by Subterranean River.

CAUGHT LIKE RATS IN A TRAP

While at Work in the Letchberg Tunnel, Water from Underground Water-course Buret Forth and Swept Them to Death.

Berne, Switzerland, July 25.—There was a frightful accident early Friday morning in the Letchberg tunnel, in the Bernese Alps, which resulted in the death of twenty-five workmen. The men were drilling inside the tunnel.

Without warning their tools pierced the wall that separated them from a subterranean river or lake, the existence of which was not known. Then the wall gave way with a crash and a torrent of water and mud rushed into the tunnel and filled it.

All of the workmen were drowned. They were Italians.

ALABAMA WILL GET \$140,000.

This Sum Will Come from Assessment of Intangible Franchises.

Montgomery, Ala., July 25.—The new law providing for assessment of intangible franchises will yield the state of Alabama the magnificent sum of \$140,000. In exact figures last year the tax was \$138,838, and it will be fully as much this year. The same amount that goes to the state will be received by the counties, as the counties, as a rule, assess about the same as the state. The total valuation last year was \$31,381,838, and it will be about the same this year.

This revenue is in addition to the tangible assessments, and until the 1907 session of the legislature was not collected at all. It will, like other sources of revenue, grow bigger as it grows older, until in a few years it will yield way up toward a million dollars. Taking the counties and state together, its return on last year's assessment will be \$276,656.

TO RE-TRY OIL CASE.

Combine Cannot Escape Rape of the Big Stick.

Oyster Bay, N. Y., July 25.—President Roosevelt has announced in unmistakable terms the determination of the administration to proceed with the prosecution of the Standard Oil case despite the decision adverse to the government, handed down by the United States circuit court of appeals Wednesday.

This decision, the president thinks, in no way affects the merits of the case, and he makes known his decision to cause the action to be brought again before the courts, in such shape, if possible, as to prevent technicalities interfering with a decision based upon the actual issues involved.

It is said the president has directed the attorney general to immediately take steps for the re-trial of the case.

Ran Straight Into Jail.

Mobile, Ala., July 25.—A Gulfport, Miss., special says that Will Busby, a negro ice man, who, when the sheriff's officers were trailing him with dogs to arrest him for deadly assault on another black with a shotgun, ran straight into the doors of the city jail for refuge, was bound over in the sum of \$100 and a mittimus issued for his transfer into the county jail. Busby was enraged by the appointment of another negro to drive his wagon and sought the life of his successor in revenge.

Body Found in River.

Hawkinsville, Ga., July 25.—The body of E. C. Cox, commonly known as "Zema" Cox, was found in the river lodged against a log just below the cotton factory here. He disappeared from home Sunday, and no trace of him could be found until discovered in the river. The coroner held an inquest, but no evidence showed the cause of his death, except a scar over the eye, and this was very slight. He was married, but had no children.

THE MILLAGE WILL REMAIN THE SAME

The State and County Combined Will be Eighteen and Half Mills.

COUNTY SCHOOLS GET SEVEN

County Commissioners Assess Same Millage as Last Year—Surplus in Both General and Fine and Forfeiture Funds.

From Friday's Daily Sun:

The County Commissioners, after a session lasting three days, adjourned Thursday afternoon until their next regular meeting.

They met for the purpose of receiving the assessor's books, equalizing the tax rolls for the year 1908 and making the general assessment for the county.

After much argument the assessment was allowed to remain as it was last year, as follows: For county schools 7 mills, county roads 4 mills. No levy was made for the fine and forfeiture and general funds, as both these have a surplus.

The State assessment is 7½ mills, which gives a total for the State and county of eighteen and a half mills.

Several pieces of property were raised and some reduced by the board at this meeting.

A Delightful Party.

From Friday's Daily Sun:

Thursday afternoon, at her home on South Roper avenue, Miss Lena Baird tendered a farewell party in honor of her visiting friend, Miss Gertrude Westgaard, of Miami, who will leave for her home Saturday.

Many young lady friends of the hostess and guest of honor were present, and all had been invited to bring their sewing, as this was a feature of the event.

Delicious refreshments were served, consisting of a salad course, ice cream and cake, and altogether the afternoon was most pleasantly spent.

Miss Westgaard formerly resided here, and her visits are always a source of much pleasure to her many friends.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." STRANGLES BOY AND TAKES HIS MONEY

Attempts to Cut His Mother to Pieces When She Appears.

WARRANT ISSUED FOR ARREST

Sam Jones, a Bad Negro, Wanted to Do the Carving Act at Cummer's Log Camp, About Eight Miles West of the City.

From Saturday's Daily Sun:

A negro by the illustrious name of Sam Jones on Friday attempted to kill Ella Williams at Cummer's log camp, near Tloga, about eight miles west of this city.

From information that could be learned it seems that Jones had just robbed her little boy of a sum of money, and she was remonstrating with him about the theft when he cut with his razor and made for her, but Ella, being the best sprinter of the two, made her escape to the commissary, and Sam knew that he could not venture close in that direction.

The boy was choked into insensibility and is in a dangerous condition from the effects of the strangulation.

Sheriff Fennell was notified, but had no available deputy he could send to the scene, and himself had to leave on the noon train on more important business and could not visit the place.

It was learned Friday night that Jones had made his escape, but a warrant has been issued for him and the officers will keep a close watch throughout the county.

His Prisoner Escaped.

Detective C. C. Harden, of the A. C. L., who passed through the city Wednesday with a negro prisoner wanted for the larceny of some whiskey from a box car in Levy county, failed to land his man behind the bars, as the following notice from The Times-Democrat explains:

"Three pistol shots rang out on the still air as the train rolled into the station Tuesday night. An A. C. L. detective was attempting to bring a negro car thief to the county jail, and as the train stopped the prisoner took leg bail. The detective gave chase, and when opposite O. J. Farmer's residence he pulled down on the fleeing figure without effect. The wild bullets sang uncomfortably near Assessor Coulter, who was sitting on the porch of his residence."

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

Have Returned from Atlanta.

From Friday's Daily Sun:

Mrs. J. Runkle, Miss Clara Runkle, Mrs. J. A. Naftagar and little daughter, have all returned from Atlanta, where they went several weeks since for the purpose of taking the Pasteur treatment for hydrophobia, which it was thought they were liable to have when they left the city. Even though no symptoms developed, they all took the "cure," and returned home feeling sure that now there could be no possible danger. They enjoyed their stay in the Georgia city and say the trip proved a pleasant outing for the entire party.

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. The genuine is in a yellow package. J. W. McCollum & Co.

ANOTHER TIGER MAN CAUGHT IN THE ACT

Chas. Player Confesses His Guilt to Marshal B. T. Arnow.

GOT SEVENTY-FIVE CENTS PINT

Found Three Full Pints, One Full Quart and Some Twenty-five Empty Bottles Awaiting Their Turn to Be Filled.

From Friday's Daily Sun:

Marshal Arnow has again added new laurels to himself by arresting Chas. Player, another "tiger," and which it is alleged has been in operation for the past several months.

The marshal has been suspecting the place and yesterday having seen what he thought was good evidence laid in wait last night behind the barber shop of Wm. Burton, when he saw the transaction made and the money paid over to Player.

The purchaser, a Mr. Robinson, paid 75 cents for the "booze" and after handing over the money the two took a drink just as the marshal walked in on them.

Player, who is employed by Wm. Burton as a barber, acknowledged to the officer that he had sold the whiskey. Officer Zetrouer assisted the marshal in searching the place, when they unearthed three pints, one quart and about twenty-five empty bottles, all labeled and only waiting to be filled.

From Saturday's Daily Sun:

Chas. Player was fined \$50 and costs or sixty days on the streets for selling whiskey, in mayor's court Friday morning, he pleading guilty to the charge.

The evidence in the case was all against Player, as the purchaser, Mr. Robinson, testified to giving him \$1 for the pint and receiving 25 cents in change, when the two took a drink in the rear of the shop where Player was employed.

It also developed that the whiskey found and confiscated by the marshal was not the property of Player, but belonged to William Burton, proprietor of the place. The mayor ordered the marshal to arrest Burton, but he was afterwards released pending further investigation by the marshal.

Will Keith, arrested by Marshal Arnow, was fined \$1 and costs for driving a hack without a license.

Chas. Player, arrested by Policeman Zetrouer, was fined \$5 for drunk and disorderly or ten days.

Will Burton and Julius Harris, arrested by Policeman Zetrouer, were discharged, the evidence being insufficient to convict them.

Two cash bonds were forfeited, the defendants failing to appear.

During the day friends of Player succeeded in raising the necessary wherewith and paid both his fines, which amounted with the costs to \$62.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill." Sold by all druggists.

Will Wed in 'Frisco.

In a letter received by relatives in this city, Harvie McCormick, of the U. S. Steamship Tennessee, conveys the information that he will wed Miss Ethel Cramer of San Francisco about the 20th of August, just before his departure to Samoa. His wife will remain in the Western city until fall, or about Xmas time, when she will visit Gainesville.

A Golden Wedding

Means that man and wife have lived to a good old age and consequently have kept healthy. The best way to keep healthy is to see that your liver does its duty 365 days out of 365. The only way to do this is to keep Ballard's Herbine in the house and take it whenever your liver gets inactive. 50 cents per bottle. Sold by W. M. Johnson.

DROP IN SOMETIME

At one of the leading stores in Gainesville and ask the proprietor if it is dull with him. Nine times out of ten he will say he is not doing very much, in fact not near what he did one year ago, but this season he has had a good run on ladies' ready-to-wear goods, or white wash goods, or some certain style of shoe—in other words, by reason of the large variety of articles carried in stock, he managed to keep doing business at a profit. Take the Banking business: Most Banks will say their business isn't so good since the panic, or something of that kind, but still they are doing "mighty fine." That is not like giving the figures. It is more or less evasive. YOU have a right to know how "things are" where your money is kept, and you should know—just on the figures—get at the inside of it. We have published five Statements on calls made by the Comptroller of the Currency since we opened for business. Haven't seen one? All right, come around and we will give you a copy of each one. We keep a complete stock, like the merchant referred to above, and you will always find we can "deliver the goods" if it is in the Banking line.

We will not accept stamps of a larger denomination than 2 cents.

As suggested by Col. W. J. Bryan, Democratic candidate for President, The Sun will receive contributions to the Democratic campaign fund, and forward same to the National committee. No subscription of less than one dollar will be received, and the names of all contributors will be published in The Sun, unless otherwise requested. Receipts for all money forwarded to the National committee will also be published. Send in your subscription and help the cause. The committee "needs the money."

Castro sees President Roosevelt's bluff and has recalled his ministers to Washington. Let us have peace, or we may get the bubonic plague.

Judge Taft says there will be real publicity "in" the campaign, but Treasurer Sheldon says "after" the campaign is over. But Taft, of course, will know nothing about campaign contributions.

Twelve mysterious checks were received by Treasurer Sheldon when he was conferring with Taft at Hot Springs, but you will have to wait until "after election" to know the names of the malefactors of great wealth who thus contributed.

The New York stock market is so entirely in control of the Harriman and Rockefeller interests that everyone else should let it alone. Let the frenzied financiers fight it out, for with them it is a case of "dog eat dog," but for others it is dog eat lamb.

Georgia peach growers have not received satisfactory returns for their crop this season, and many of them have canned the bulk of the fruit. Neither did the Florida growers reap a harvest of dollars from the peach crop, the recent panic being assigned as the cause for the low prices.

F. M. Hester, who was for many years the efficient justice of the peace at Archer, but who removed to Williston some years ago, has been elected mayor of that town. His old Alachua county friends extend congratulations upon his being elected to such a responsible position in that rapidly growing little city.

The editor of The Sun can say one word for the English sparrow—he is an exterminator of house flies. We have watched these little birds catch flies on the verandas of residences, and they keep the postoffice here absolutely free of the pests. Nevertheless, we would like to see the English sparrows exterminated as well as the flies; but it will never be until the millennium.

Lee is one of the few counties in Florida in which there is any evidence of Republican activity. On this subject The Fort Myers Press says: "The Republicans of this county are soon to hold a meeting, so we are told, to nominate county officers. While some may think there is no danger in this move, it is a wise policy to be prepared to meet all comers, and the Democrats should stand together and make a strong fight."

REPUBLICAN PUBLICITY.

There is to be publicity of campaign contributions and expenses, law or no law. William Nelson Cromwell, Harriman's lawyer, has fixed it.

Taft, the candidate, says so and laughs.

Sherman will say, "me, too."

Hitchcock looks wise and smiles.

George Rumsey Sheldon declares:

"I have always been in favor of publicity."

We know it must be all true, for after Mr. Taft had ordered and the committee had elected Hitchcock for chairman, and Sheldon for treasurer, Mr. Taft and the committee seemed rather doubtful how Mr. Sheldon, the banker of No. 2 Wall Street, New York, would be regarded by the voters, so the following certificate of character and promise of publicity was given out officially:

"Mr. Sheldon is selected on the recommendation of Cornelius N. Bliss. He is president of the Union League Club of New York, was the treasurer of the Republican State Committee during the campaign of Mr. Hughes for Governor of New York, and rendered a complete statement under the publicity law of that State of the receipts and expenditures of the campaign.

"This was one of the reasons that induced his selection, as the law of New York regarding publicity will apply to his action as treasurer of the National Committee."

What the other "reasons" were that induced Candidate Taft and the committee to select Mr. Sheldon as treasurer of the Republican National Committee can be judged when we inspect the list of trusts and corporations of which, according to the "Directory of Directors," he is actively connected with.

Mr. Sheldon is director in the following trusts and corporations:

American Locomotive Company,
American Locomotive Automobile Company,

Bethlehem Steel Corporation,
Cincinnati Northern Railroad Company,

Detroit Edison Company,
Electrical Securities Corporation,
Laclede Gaslight Company,

Locomotive and Machine Company of Montreal (limited),
Locomotive Security Company,

Metropolitan Trust Company,
Milwaukee Electrical Railway and Light Company,

Milwaukee Light, Heat, and Traction Company,
National Copper Bank,

New Jersey Terminal, Dock and Improvement Company,
North American Company,

Republic Steel and Iron Company of New Jersey,
Rogers Locomotive Works,

St. Louis Transit Company,
Union Bag and Paper Company of New Jersey,

Union Electric Light and Power Company,
Union Electric Light, Heat and Power Company of St. Louis.

That Candidate Taft dotes on publicity as a matter of policy is, of course, natural; that Hitchcock will publish every evening what he has received and expended is doubtful, but that Sheldon will not rest a night during the campaign until he has given to the newspapers just how much Rockefeller, Morgan, Harriman and the other malefactors of great wealth, and the trusts and corporation magnates have paid and the amount and to whom he has distributed the boodle is certain, for does he not say "he is and always has been in favor of publicity."

The increase in freight rates which the railroads will put into effect on September 1st will not tend to increase trade. The claim of the railroad officials that they must increase rates or reduce wages is fallacious. If the merchants have to pay ten per cent increase in freight on the necessities of life is it not reasonable to conclude that they will add equally as much (and generally double) to the price of their goods, thus increasing the cost of living? If so, then how will the laboring man be benefited by the railroads increasing rates and maintaining wages? If prosperity is returning, as claimed by the Sunshine Club, there is no excuse for the railroads increasing freight rates, as they will soon be earning as much as formerly.

One of the candidates for the Republican nomination for Vice-President is ill from eating lobster. All the Republican candidates will be sick from eating crow next November.

WANTED—A GOVERNOR.

Governor Broward is reported to be traveling over the Western States compiling data for his message to the Legislature, which it is said he will convene in extra session shortly after his return to the State. Referring to the Governor's prolonged absence The Times-Union of July 23rd says:

"Yesterday the pardoning board, on account of the absence of the Governor, failed to meet. A meeting had been called for that day and a number of important cases were set for consideration. A large number of attorneys paid their way to Tallahassee, paid their expenses while there and then paid their way back home without being heard, all because at present Florida has no Governor.

"At last accounts Gov. Broward was well and strong but he was on his travels. He went to the Denver convention about two weeks ago and, though that convention adjourned eleven days ago, he has not yet returned. He is reported to be traveling in California. He ought to be in Florida attending to the duties of his office or the president of the Senate ought to go to Tallahassee and assume those duties until Gov. Broward returns.

"One of the cases that the pardoning board was to have considered yesterday was that of George Washington, convicted of murder and sentenced to be hanged July 31. The pardoning board will not meet again until July 30 and doubt is expressed as to whether the case can be presented in time to save this man's life even if the board should decide that this is a proper case for clemency. At any rate he will be left in suspense until the very day of his execution. This George Washington is not the father of his country. He is only a negro, but he is a human being and is entitled to all the consideration that is accorded to the most influential man. He may deserve to be hanged, but if the pardoning board is to consider his case it should consider it in time.

"Gov. Broward should not place his pleasure above the rights of the lawyers and of their clients. He should not make lawyers incur unnecessary expenses, applicants for pardon endure unnecessary suspense, the business of the State suffer unnecessary delay just for the pleasure of seeing the world. He will have plenty of time for traveling after the 5th of next January."

The editor of The Sun was discussing Gilchrist's phenomenal victory with a friend the other day, and the reasons therefor. Our friend attributed the result of the primary, in a large measure, to the two preachers who took such an active part against Gilchrist and got themselves into a "hole" from which they could not crawl out; but when we expressed the opinion that Gilchrist's personal canvass of every county in the State, in which he met "face to face" nearly every voter, had most to do with his success, he readily agreed with us. You could ask most any man if he knew Gilchrist, and his reply would be: "Yes, I have met him personally," many of them adding: "and he looks good to me." Campaign speeches are all right in their way, but they do not accomplish half so much as mingling with the people, and being one of them.

Mr. Broward couldn't go to Washington, but he went to Denver, where he did valiant service for the cause of real democracy.—Ex. And that's more than some would have done who wanted to go there.—Pensacola Journal. Tell us all about it. What did the Governor do or say to cause the mantle of National greatness to fall upon him?—Ocala Banner. Yes, do. The people of Alachua county, especially, are anxious to learn something about the great work Governor Broward accomplished at Denver.

The Jasper News has ceased to be the official organ of the Farmers' Union of Florida, and again becomes a political and local newspaper. J. M. Caldwell, one of the ablest editors in the State, resumes his old position as editor, while W. C. Caldwell will look after the business end.

The mechanical features of the recent Republican National Convention and how the President at the Capitol listened to the lengthy burst of applause for him taking place in Chicago, 790 miles distant, are explained in the August number of Popular Mechanics.

HOW INVENTIONS WERE STOLEN.

Before patents were granted for inventions, says Edwin J. Prindle in American Industries for July, the inventor had but one way to secure a return from his invention. That was to keep it secret.

Secret inventions were the most valuable possessions of many families and guilds. But in proportion to their value, they tempted the cupidity of competitors. The secret of making Venetian glass was greatly prized and was most jealously guarded. A Venetian named Paoli, who possessed the secret, left Venice and wandered northward practicing his art. He was stabbed in Normandy with a dagger marked "Traitor"—a measure taken to preserve the secret.

In 1710 the Elector of Saxony learned that a man named Bottger had discovered the secret of making porcelain. He accordingly confined him in the castle of Albrechtsburg until the discovery had been perfected. The workmen were sworn to secrecy, and the draw-bridge was kept up except to admit those specially authorized. Thus was the manufacture of the famous Dresden ware begun. The secret was soon carried to Vienna, where a royal factory was established, and to France where it was the foundation of the manufacture of the famous Sevres pottery.

The stealing of the secret of making "cast steel" is an interesting example. A watchmaker named Huntsman was dissatisfied with the watch springs the market afforded, and in 1760 conceived that if he could cast steel into an ingot, springs made from it would be more homogeneous. His conception was successfully carried out, and a large market was established for "Huntsman's ingots." Large works with tall chimneys were soon built. Every effort was made to keep the secret. No one was admitted to the works. The process was divided, and persons working on each part were kept in ignorance of other parts of the work. One bitter winter night a man dressed as a farm laborer came to the door apparently in an exhausted condition and asked admittance. The foreman, deceived by his appearance into thinking the man was incapable of understanding what he would see, let him in. The man dropped down in sight of the furnaces and seemed to sleep. Through furtively opened eyes he saw the workmen cut bars of steel into bits and, depositing them into crucibles, put the crucibles in furnaces and urge the fires to the highest pitch. The workmen had to protect themselves from the heat by wet clothes. Finally the steel melted, he saw the crucibles were withdrawn and the steel was cast into moulds—and the secret was a secret no longer.

The gigantic task of counting all the stars in the heavens and assigning to each its proper magnitude is one that demands the quality of almost infinite patience, and without the art of photography the task would be almost impossible. Photographic plates covering the whole of the Southern Hemisphere have already been secured, and these with the series dealing with the Northern Hemisphere will number more than 200. Each plate, which is 15 inches square, records from 20,000 to 250,000 starry images, and on a rough calculation the total number of stars photographed will be about 23,000,000. The task of counting the stars on the plates has already been commenced, and this work, together with the cataloguing, will take at least 10 years.—From August number of Popular Mechanics.

Hon. Joseph H. Humphries, editor of The Bradentown Journal, was a welcome visitor to The Sun office Saturday. Senator Humphries, who has been nominated to succeed himself from the district composed of DeSoto and Manatee counties, will be a candidate for president of the Senate at the session of 1909. He is not only one of the ablest and best men in public life in Florida, but also an experienced parliamentarian, and would make an ideal presiding officer.

The Farmers' Union is steadily increasing in membership and influence in Alachua county. There is no reason why the farmers should not organize for the purpose of advocating their interests, and The Sun wishes them success in their undertaking.

It is reported that Candidate Taft will in his speech of acceptance favor more tariff revision than the Republican platform calls for. But after all it is Congress that makes tariff laws.

SEA ISLAND COTTON.

Savannah Market Quiet and During Past Week.

Savannah, Ga., July 25.—The market during the past week was quiet and firm with light offerings and a moderate demand. Sales for the week, in bales, were mostly of extra choice. A decline in the quotations for several grades was taken merely as adjusting of relative prices after previous irregularity.

Crop accounts were much the same from Georgia, except that there were some complaints of shedding and other damage from the excessive heat after the heavy rains. Accounts from Florida are mostly unfavorable, the crop being backward and not in satisfactory condition, remaining backward and unpromising.

The following prices are based on factors' quotations and are revised weekly on Fridays:

| | |
|-------------------------|---------|
| Fancy Floridas | 23 |
| Fancy Georgias | 23 |
| Extra choice Floridas | 21 |
| Ex choice Georgias | 21 |
| Choice Ga's and Fla's | 18 @ 19 |
| Ex. fine Ga's and Fla's | 15 @ 16 |
| Fine Ga's and Fla's | 13 @ 14 |
| Com. Ga's and Fla's | 10 @ 11 |

Charleston, S. C. July 25.—Sea-

land cotton, receipts, 57 bags. ports, 59; sales, 61; stocks, 1,200; crop-lots, 35c.

CIVIL SERVICE EXAMINATION

To Be Held on August 19th
Clerks and Carriers.

From Sunday's Daily Sun:

Announcement has been made by the United States Civil Service Commission for an examination to be held in this city August 19th for clerks and carriers.

It is hoped that a large number of applicants will avail themselves of the opportunity of taking this examination, which will be held before some one here.

The Civil Service Commission now offering inducements for persons to enter the postoffice department and the examination is open to either sex, the age limit being from 18 to 45 years.

Application blanks can be secured by applying to Postmaster Lynch, must be sent to the district postmaster at Atlanta before August 1st.

Wood Family Reunion.

The Wood family held quite a pleasant reunion at the home of Fre Wood, 40 East High street, Tuesday afternoon. The family is composed of the mother, Mrs. Mary H. Wood, daughter, Miss Madie of Smith, Mr. and Mrs. T. H. Wood and daughter, Gertrude, of Kansas City, Mo., Mr. and Mrs. C. D. Wood, son Howard and daughter, Lucile, of Archer, Ida, Mr. and Mrs. Fred Wood, daughter, Miss Helen, of this city. The whole family is here, and needless to say are having a delightful visit.—Alliance (Ohio) Record, 21st.

Mothers' Meeting Friday Night

Notwithstanding the inclement weather, quite a number attended the Mothers' Meeting at the parlor of Prof. T. F. McReath Friday evening, when an interesting program was rendered. The fathers, too, were also invited to participate, and a number of them responded by their presence on this occasion. The excellent program rendered music and recitations, an important feature was the subject on "Home Training Children."

A YOUNG GOLD MINE THAT LOOMING UP TO LARGE PROPORTIONS.

The DEATH VALLEY ARCADE CONSOLIDATED MINES CO., located near Cima, California, is installing a 60-ton-a-day smelter to up their low-grade ore of which they have now blocked out and taken 25,000 tons, worth \$25 a ton, or 625,000. They have 2,000,000 tons in sight and ore veins on their property over 2 1/2 miles long, running \$25 to \$30 a ton.

They have recently closed a contract with a smelter company to take 15,000 tons of their high-grade ore, which will average \$50 or more a ton, a total, in round numbers, of \$1,000,000. It is confidently expected that handsome dividends will be paid the early part of next year, and the world must have gold, and it is this mine will contribute its share.

OF CITY AND COUNTY CONDENSED

General Interest Gathered by Our Reporters.

PERSONAL AND SOCIAL ITEMS

What Happened and What is Happening Told in Short Paragraphs So That "He Who Runs May Be in the Sun."

Yesterday's Daily Sun.

Ensemble of Archer was in the city yesterday.

Lowman of Raleigh was in the city yesterday.

Strickland of Hague was in the city yesterday.

Fannie Harvard of Alachua is in the city visiting friends for a few days.

Thrasher and Henry Stokes of Alachua were visitors to the city yesterday.

J. Jackson, one of the substantial farmers of Lake View, was in the city yesterday.

Miss Thomas has gone to Kalamazoo, where she will spend some time visiting her sisters.

Waters, the progressive and successful trucker of Hickman, is in the city visiting relatives.

Johnnie Watkins of Micanopy is in the city on a visit to his friend, Douglas Pedrick.

H. Holly, the stockman and partner of Arredondo, was transacting business in Gainesville Saturday.

Ida Jackson of Lochloosa, who has been in the city for the past few days, returned to her home yesterday.

Thomas, one of the successful farmers of Windsor, was among the visitors to the county capital Saturday.

Mrs. J. J. Sanders of Marion is in the city on a visit to the family of J. F. Bunch. Mrs. Bunch is a sister of Mrs. Sanders.

Mead, one of the enterprising farmers of Fairbanks, was in the city yesterday. He took advantage of his trip to call on The Sun and renew his acquaintance.

Belle Sadler departed yesterday for Mt. Vernon, Ga., where she will spend the remainder of the summer. Her many friends trust that she will have a pleasant trip.

S. B. Rogers, pastor of the Baptist church of this city, will leave for Proctor of Lake Butler in the morning for meetings at Antioch beginning next Monday.

Robinson of Williston was in the city yesterday. He was on his way to his old home at Alachua, where he will spend several days visiting old friends of that section.

Almenia Leitner, who has been in the city for the past few days, left yesterday for Micanopy, where she will spend some time with friends before returning to her home.

University Cycle Company, of Lake City, has as manager, have their first shipment of bicycles and supplies and will open their business on West Liberty street.

Gainesville parties were in the city yesterday looking for a location to start a mercantile business. It is

thought they were successful in securing a building sometime next month.

J. G. Beville of Arredondo was in town Saturday. He says they are now getting all the rain they want, as it scarcely misses a day but what a good rainfall is witnessed in that section.

County Treasurer Peeler yesterday received a check from Comptroller Croom for \$1,855.50, it being Alachua county's proportion for the hire of State convicts for the period ending June 30th.

J. P. Collins returned yesterday from McIntosh, where he is employed as one of the carpenters on a fine residence being built there. After spending the day with friends he will return to his duties Monday.

J. C. Halle and family of Alachua are in the city on a visit of a week to the family of Capt. A. R. Elmore. Mr. Halle will, however, proceed to Worthington, where he will spend a few days while his family is stopping here.

Deputy Sheriff I. C. Walker left yesterday for Dunnellon, where he went to carry two negro prisoners to the phosphate mines—Chas. Keltchen, alias Isaac Davis, and Robt. Matthews, both sentenced to six months for larceny.

D. L. Landress, the competent woodsman for the Kelley mill at Prairie Creek, left yesterday for Hague, where he will visit the family of his father and other relatives. He was accompanied by his wife and children, who will visit that section some time.

Miss Valera Bennett has accepted a position as saleslady in the big department store of The G. W. Hyde Company. This firm has found it necessary to increase their help, instead of diminishing it, and another salesman will be added next week.

C. J. McKinney, one of the prosperous farmers residing near Waldo, but who has his postoffice at Graham, was meeting his many friends in the city Saturday. He has been suffering with rheumatism for some time past, but his friends will be glad to know that he has sufficiently recovered to enable him to get about.

G. W. Parker of LaCrosse was a visitor to the city Friday. He reports that the Farmers' Union and their families gave a big basket picnic at Providence on last Saturday, which was largely attended from all sections of the county. A large crowd was present, plenty to satisfy the inner man and a fair day made it an enjoyable occasion.

A new wareroom is being erected by the Virginia-Carolina Chemical Company at their plant near the Seaboard depot. When completed it will give them storeroom to accommodate at least twenty cars more of the raw material that they use in making up the different classes of fertilizer. This company does possibly the largest business in this line of any house in Central or South Florida, as they receive their ingredients in car lots, and it is as a general thing five to ten cars at the time.

AN ENJOYABLE FUNCTION.

Entertainment at Armory Friday Evening Proved a Success.

Despite the adverse condition of the weather, the entertainment given under the auspices of the Baptist Young People's Union of the First Baptist church at the Guards' Armory Friday evening proved quite a success both socially and financially.

In accordance with announcement, the "Seven Old Maids from Lavender Town" were present to assist the young people with the function. Their costumes were grotesque in the extreme, and created much merriment among those present.

Seven cents was the admission charged, this also being the price of the cream, cake, etc.

During the evening an interesting musical program was rendered, including several recitations which were much enjoyed.

Died in His 107th Year.

Obit Robinson, possibly the oldest colored person in the county, died at his home near Jonesville Friday morning, and the remains were laid to rest at Pleasant Plains cemetery. He was born May 14, 1891, was a servant in the Civil War, remembered all the times when the stars fell and often referred to the incident. He was an industrious colored farmer and had many friends among both races.

Sun "Want" ads. bring results.

Will Be Big Thing for Gainesville

New Division of Land Office Will Employ About Twelve Clerks.

\$25,000 A YEAR TO BE PAID OUT

Salaries Will Materially Help the City in Financial Way—Some of the Clerks Already Installed and More to Come Soon.

Gainesville is fortunate in having been selected as the headquarters for the new Field Division of the United States land office, with Capt. A. Paul in charge.

That it will prove a good thing for the city from a financial standpoint one has only to see what the salaries of the clerks will amount to in the course of a year.

The new division will employ between ten and twelve clerks to perform the work that will be required of them, and the pay roll will reach into the neighborhood of some \$25,000, which will be paid out in this city.

Besides this, it will cause many people to come to the city who would otherwise never visit here. All the furniture for the new offices was purchased here of the local dealers and is of a high quality, being the latest improved and conveniently arranged. It will be added to from time to time as the new clerks come in and occasion demands it.

There are five of the special agents here under Capt. Paul, the latest one to arrive being F. E. Hunt, with more expected by next month.

The new division comprises three States, Alabama, Mississippi and Florida, and it will take the large force named to keep up with the lands which are fast being taken up through the homestead and timber and stone purchase laws.

SMILES.

Editor Sun: I send you some smiles which have come to me of late. If they are any good, use them.

The hero of Manila Bay might have remained forever invincible if the souvenir cranks had not put his picture on all of the spoons. As it is, he gets licked every time the ice cream is served. Even this is not an unmitigated calamity, because by the same process he has outdone Hobson in the kissing act.

Traveler—"Say, farmer, can I have one of those watermelons?"

Farmer—"Yes, I am only keeping them for the hogs."

A Cracker at an ice cream social devoured seven saucers full of the delicacy and declared he would have to desist or else build a fire on his stomach.

W. J. MARTIN.

Wilcox, Fla., July 25, 1908.

Keep Out

The Flies

Screens and screen doors are a necessity now.

Keep the flies and mosquitoes out of the house.

A few dollars expended in screens will add comfort to your home out of all proportion to the small necessary expense.

We carry a full line at mighty attractive prices.

THE S. J. THOMAS CO.

SPECIAL TRAIN FOR THE LOCAL ROOTERS

Fare For the Round Trip Will Be Only One Dollar.

MANY ARE EXPECTED TO ATTEND

Manager Davis Will Strengthen His Team for the Contest With Palatka Thursday—Two Games to Be Played Here Tuesday and Wednesday.

Through the efforts of Manager Davis, the Gainesville aggregation will have a chance to attend the game between Palatka and Oak Halls on Thursday.

Ticket Agent Goodwin will have a special train leaving here at 12 o'clock noon, arriving in Palatka about 1:30 p. m., making the trip in about one and a half hours, and returning will leave Palatka at 7 o'clock, for the low rate of one dollar for the round trip.

The home team will be greatly strengthened for this contest by having her original old players in their places, and they expect to carry off the honors on this occasion. They have arranged to take a large crowd with them.

This week will give the fans a chance to witness three games, two which will be played on the local diamond with White Springs, and the third in Palatka.

The White Springs club have a strong lot of players, having been in several games this season, and are in excellent shape to go up against the real article in the Oak Halls.

HIGH SPRINGS NEWS.

Two Very Sad Deaths During the Past Week.

High Springs, July 25.—Born, to Mr. and Mrs. H. J. Peterman on July 20th, a son.

Mrs. G. W. Stanley and children of Plant City are visiting the family of Rev. J. C. Rogers.

Miss Annie Lou Hodges has gone to Seabreeze for a visit of several weeks.

Little Clara, the nine-months baby of Mr. and Mrs. Wade Whilden, died on Saturday and was buried Sunday, Rev. G. E. Thompson conducting the funeral services. The little one's death was comparatively sudden, having been sick but a very short time, and was a great shock to the devoted parents and other relatives. They have the sympathy of everyone in their sad bereavement.

Mrs. D. M. Davidson died on Friday night, after an illness of two weeks. She is survived by her husband and three children, Mr. W. N. Davidson, Mrs. Edmondson, and Mark Davidson, all of High Springs. The remains will be interred in Wareborough, Ga. Mrs. Davidson was a consistent Christian woman, and her many friends are grieved to learn of her death.

In spite of the threatening weather a large crowd attended the baptismal services held at Peau Springs on Sunday afternoon. The rite was bestowed on twelve candidates by Rev. J. C. Rogers. Several others who were to have been baptized were prevented from being present by sickness.

The many friends of Mrs. G. W. Bryant will be glad to learn that she is recovering from her recent severe illness.

Miss Callie McCall, for many years a trusted and efficient employee of the Government at Washington, is visiting her mother, Mrs. McCall.

Mrs. C. L. Futch of Lake City, who has been visiting the family of Rev. J. C. Rogers, has returned home.

T. D. Futch has gone to Thomasville to remain until the opening of the college at Auburn, Ala., when he will resume his studies at that institution.

On Wednesday night Esther Rebekah Lodge of High Springs held the regular installation of officers, followed by an elegant banquet. The following were the officers installed: Noble Grand, Mrs. Ellen Rimes; Vice-Noble Grand, Mrs. A. E. Adams; Treasurer, Mrs. G. C. Nial; Secretary, Mrs. J. L. Grimes; Warden, Mrs. Cora Pedrick; Conductor, Miss Oula Rimes; Chaplain, Mrs. Starr; H. S. to N. G., Mrs. B. B. Patter; L. S. to N. G., Mrs. Kittie Hatchell; R. S. to V. G., Mrs. Geo. Glass; L. S. to V. G., Mrs. J. C. Harris; Inner Guard, Mrs. Ida Briggs; Outer Guard, Miss Lila Thompson. Mrs. J. L. Grimes was installing officer, and performed the du-

PREPARATION BEING PUSHED FOR W. MAIN

City Surveyor Taylor Busy Surveying to Ascertain Level of Street.

ATLANTIC COAST LINE ACTS

Work Soon to Commence on This Thoroughfare—About All Preliminaries Completed—Vitrified Brick from Union to Mechanic Street.

City Surveyor A. W. Taylor was yesterday busily engaged in obtaining the level of West Main street for the purpose of making the correct grade for the laying of the vitrified brick.

The Atlantic Coast Line was the first to take action in the matter, as it was only a few days after the resolution had been passed up to them that they sent a force here for the purpose of ascertaining the number of brick it would require for their part of the work and the probable cost thereof.

From all indications it seems now that it will be only a short while before work will actually begin on the laying of the brick, which will give us our first paving of this kind for street work.

The crossings put down here some eight years ago by Chairman Benson have stood the test of all kinds of vehicles and the roughest of use, and they have not shown up any the worse for that. If the new work is put down in the same manner it will be a thing of joy to all who will be compelled to use this street.

It is understood that the expense of this work will be divided equally between the city, A. C. L. and property holders against whose property the improvements abuts.

ties in a highly creditable manner.

Mrs. E. B. Godwin has returned from a pleasant visit to Alachua.

W. D. Futch and daughter, Miss Muriel, are at Seabreeze.

Again in Hands of Law.

From Sunday's Daily Sun:

Chas. Player was arrested again yesterday on a charge of selling "booze," this time his case coming up before Judge H. G. Mason. He waived examination and bond was placed at \$250 for his appearance at the next term of court. Up to last night his friends had failed to raise the bond, and he is confined in the county jail.

Love Improving Fast.

Earl Love, the young man so seriously injured near Trenton on Wednesday night while on his way to the postoffice, is reported as improving and doing very nicely, considering the way in which he was bruised and damaged. It will yet be several weeks, however, before he will be able to be removed from his room.

You'll Sleep in Comfort

If you repose on one of the many beds you'll see in our extensive stock. Have you in mind a certain style that you've seen somewhere or read about? It's here—together with a lot of better ones. No use of thinking about it, no use talking it over—see the goods and you'll get sleepy looking at them. The prices will wake you up—lower than you thought possible.

When in the city make our store your headquarters.

A Dip or Spray for Cattle

BY JOHN M. SCOTT

The Florida Agricultural Experiment Station

Perhaps in no section of Florida are the cattle free from animal parasites. Every farmer, whether he owns one animal or one hundred, ought to be interested enough to protect his animals from the injurious effects of these parasites. We have been using at the Experiment Station for the past year a dip which has proved quite satisfactory. The formula was prescribed by Dr. Nelson S. Mayo, and is as follows: White arsenic, two-fifths pound; Sodium carbonate (crystals), one and one-eighth pound; Yellow soap, one and one-eighth pound; Pine tar, one-half pint. Dissolve the arsenic by holding it for half an hour in one gallon of water. Add the dissolved arsenic to five gallons of water. Shave the soap, mix it with the soda, and dissolve the mixture in one gallon of water. When dissolved pour in the tar, pouring in slowly in a fine stream, and stirring meanwhile so as to get in solution. Then mix it with the arsenic solution, and add water to make twenty-five gallons in all.

This is to be used as a dip, spray, or wash. It loses but little by age. The solution not only kills the ticks, but also kills all other animal parasites with which it comes in contact. It may be applied either with a brush or a sprayer, or it may be put in a dipping-tank through which the animal is passed.

Injury by Ticks—One of the worst parasites with which we have to deal is the cattle tick, which causes Texas or splenic fever. The loss among native stock from this disease is quite heavy; but perhaps most of the loss is caused not by fever, but by the heavy drain upon the animal's system from the large quantity of blood taken by the ticks. One tick consumes only a small quantity; but the continued feeding of several thousand ticks upon one animal soon exhausts its constitution and vitality. This is especially true of young animals, such as calves from six weeks to one year old—a period when they ought to be making their best development and growth. If at this time they are feeding several thousand ticks, instead of growing and developing as they should they will actually become smaller. The young animal once stunted in growth will never develop as it would have done, if it had received proper care and treatment from the first. Besides suffering this loss of blood, tick-infested cattle suffer continuously from irritation and injury of the skin. The tick when attaching itself to the animal's body punctures the skin. The puncture is soon surrounded by an area of intense inflammation, which results in the formation of readily visible scabs.

Loss of Milk—The injury to the livestock owner by the ticks is not confined to the loss of blood, and the irritation of the skin caused to his cattle. It has been estimated that the loss to the dairyman caused by the cows being heavily infested with ticks is equal to one quart of milk a day for each cow. This loss amounts in a year to no less than 275—300 quarts (70 to 75 gallons) of milk for each cow. This means a yearly loss of \$20—\$25.

Much the same is true of cows on the range when nursing calves. The cow has to feed the ticks. Hence, if the ticks abstract the equivalent of one quart of milk a day from dairy cattle, doubtless they reduce in some similar proportion the milk yield of the range cow, whose calf must lose that amount, and the calf likewise suffers a corresponding drain from its own ticks. How then can we ex-

pect our cattle raised in tick-infested sections to develop as they ought to develop?

Eradication of Ticks—Of course the best solution of the problem is the eradication of the ticks, and this could be accomplished if every live-stock owner would co-operate with other live-stock men. It would of course follow that cattle from other tick-infested States would not be allowed to be shipped into Florida. It seems, however, at present that Florida may be the last State in the Union to thoroughly eradicate this pest.

Spraying and Dipping—Perhaps the next best method will be for each farmer to keep the ticks under control by constant spraying or dipping. There are a number of proprietary dips upon the market which are very good when properly applied; but the greatest drawback to the proprietary dips is their expense. Most of these preparations cost from \$1—\$1.50 a gallon, and one gallon makes about twenty gallons of dip; so that the dip costs from five to eight cents a gallon. This is a considerable expense. There are, however, several good dips (one of which is given above), which the farmer himself can prepare at a much less cost.

TROLLEY CAR STRIKES AUTO.

Men Hurled from Car and One is Seriously Injured.

Chicago, Ill., July 25.—J. W. Wade, of Paris, Tex., was seriously injured, and an automobile belonging to E. F. Jenkins, president of the Jenkins company, furniture manufacturers, was wrecked Wednesday when a West-bound Thirty-fifth street car struck the machine at Thirty-fifth street and Michigan avenue.

Jenkins, who had been entertaining Wade during his stay in Chicago, was driving the car at a rapid rate down Michigan avenue and did not see the approaching car. The force of the collision threw both men from the automobile. Jenkins was not injured. Wade was picked up unconscious and taken to his rooms in the Auditorium Annex.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. This medicine is for sale by all druggists. Samples free.

Caught Negro in Bear Trap.

Birmingham, Ala., July 24.—Bothered frequently by burglars who helped themselves in his establishment, J. R. Blair, who conducts a small store at Riley station, a suburb, set a bear trap in his place and early on Thursday morning was rewarded by the capture of a negro giving the name of Arthur McMillan. The negro was afterwards tied to a tree until a deputy was summoned and he was brought to the city and lodged in jail on several charges, including burglary. Several merchants in the vicinity of Riley and Hillman stations have purchased bear traps as a precautionary movement against future burglaries.

Stimulation Without Irritation.

That is the watchword. That is what Orino Laxative Fruit Syrup does. Cleanses and stimulates the bowels without irritation in any form. J. W. McCollum & Co.

Received by the Pope.

Rome, July 24.—The pope has received in private audience Rt. Rev. John A. Foster, Bishop of San Antonio, Tex., who greeted the pontiff on the occasion of his jubilee.

S.S.S. CONTAINS NO MERCURY

Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and he is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S., in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SUMMER NORMAL CLOSED ON FRIDAY

Resolutions Passed By Body of Teachers in Attendance.

ARE PLEASED WITH TREATMENT

About One Hundred and Seventy-five Attended Session, Which Proved Instructive and Entertaining for Them—Many Departed Friday.

The Teachers' Summer Normal, which has been in session for the past five weeks, closed its session here Friday. The term proved a very instructive one for the large number of teachers who took advantage of this training.

There were in the neighborhood of one hundred and seventy-five teachers in attendance, and the most of them returned to their homes Friday, with many kind remembrances of Gainesville and her people.

At the closing chapel exercises Friday morning, the following resolutions were unanimously adopted:

"As an expression of our profound appreciation of the opportunities for improvement and advancement afforded us in the establishment and maintenance of these summer schools for teachers, and in witness of our gratitude for the many favors we, the pupils of the Gainesville summer school, have received during the present session,

"Be It Resolved, That our sincere thanks are hereby extended—

"1. To State Superintendent Holloway and the State Board of Education for their interest in behalf of the teachers and children of the State in thus providing for a higher standard of professional qualification for teachers.

"2. To the Legislature for its liberality, patriotism and foresight in providing for the maintenance of these schools, and especially for the appropriation to assist in defraying the expense of attendance upon them, whereby many—and just those very ones most in need of such—have been enabled to avail themselves of the advantages and opportunities that would otherwise have been denied them.

"3. To those far-seeing and liberal

county boards of public instruction that shared with their teachers the expense of attendance upon the school. May their thoughtfulness and generosity find, next year, many imitators.

"4. To the generous and hospitable people of Gainesville who so kindly took us into their homes and in unnumbered ways contributed to our comfort and pleasure; to the various church organizations of the city for their kind and appreciated interests in our happiness and welfare; to The Gainesville Sun for numerous courtesies and valuable assistance; to the University of Florida for use of valuable apparatus; and to Superintendent Kelley and the county board of Alachua county for use of High School building.

"5. To our principal, Dr. Yocum, and his able assistants for their untiring efforts in our behalf.

"6. To the transportation lines of the State for appreciated courtesies.

"Be It Resolved, also, That we extend to State Superintendent Holloway our congratulations upon the great and gratifying success of his first administration, now drawing to its close, and in which he has more than triumphantly justified the hopes and expectations of his friends, and has carried forward so smoothly but persistently and forcibly the movement for educational progress and reform so successfully inaugurated by his illustrious predecessor. That we recognize in him a capable, faithful, conscientious and zealous educational leader, and hereby pledge to him our hearty sympathy and support in all his efforts looking to the promotion of the interests of public education. That we are in full and hearty accord with him in his determination and efforts to vitalize and extend the influence of our public school system by bringing it into closer touch with the home and the industrial system—the two great and fundamental institutions of civilized society, and that in this great undertaking we pledge him our loyal and zealous co-operation.

"Be It Resolved further, That a copy of these resolutions be furnished The Gainesville Sun, The Times-Union and The Florida School Exponent, with request to publish.

"MAUDE NORWOOD,

"ELMA GEIGER, Com.

"GUS WILDER, Chairman."

FLORIDA NEWS..

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

sight of Crystal River, and expects to have same in operation by November 1st. The capacity will be 3,000 cans a day and will give employment to about 25 persons. He will also can fruit and vegetables in their season if there is enough produce to warrant same.

Limes are beginning to move in large numbers now from the Florida keys. The most of the fruit is disposed of to the commission men of Miami. The fruit is selling well and the growers are getting a good price for it. While trade in limes is a comparatively new business, it continues to grow each year and will in the near future be one of the principal crops of that section of the State.

Titusville seems to be in the midst of a building boom. Besides a new ice factory and a new laundry in course of construction, the jail, which was partially destroyed by fire a few weeks ago, will be rebuilt at a cost of \$10,000. The building will be constructed of brick. And to add to the rest the Standard Oil Company is erecting a large oil tank with a capacity of 18,000 gallons and a gasoline tank of the same capacity.

A large acreage is being planted in sweet potatoes in this section this season, and if the rainy season continues the acreage will be larger than for several years past. Fifteen years ago sweet potatoes brought from thirty to sixty cents a bushel. Now they bring from eighty cents to one dollar and a half a bushel and they are always scarce in this market. There is good money in sweet potatoes at fifty cents per bushel.—New Smyrna Breeze.

James Evans, deputy marshal, acting as city dog-catcher in Jacksonville, while in the act of taking an unmuzzled dog to the pen was attacked by a mob of negroes at the corner of Beaver and Davis streets in Jacksonville Wednesday night. James Crosby, one of the mob who struck at the officer with a billiard cue, was shot by the officer and killed. After hearing all of the evidence the jury discharged the officer, the verdict being justifiable homicide.

The New York Maritime Register has the following to say in regard to the Fernandina harbor: "As the furthest South deep-water port on the Atlantic Coast, and the nearest to the great channel of navigation flowing out of the Gulf of Mexico, Fernandina offers the greatest advantages to Southern steamship lines as well as to the Western and Southwestern railway system. It has depth of water, expense and depth of harbor, second to no port on the South Atlantic Coast."

On Monday, Elsie, the five-year-old daughter of Mr. and Mrs. D. Heisler of Delray fell backward into a tub of boiling water and was only saved from death by the fact of there being a lot of clothes in the tub. As it was she received terrible burns and scalds

and is in a serious condition. The accident was caused by one of the boys firing a cracker and his sister jumped back to escape the explosion and jumped into Elsie, tipping her over backwards into the tub which had just been filled with boiling water from the stove.—West Palm Beach Sun.

With the determination of holding Florida products for Florida ports, a company with a capital stock of \$3,000,000 is now being formed in Jacksonville. The board of trade with a membership of 522, at a meeting when over 300 were present, unanimously indorsed the project and appointed a committee to solicit subscriptions for stock. This committee consists of fifty progressive citizens and their possessions represent many millions of dollars. The railroad commission has given assurance that there will be no discriminating rates in favor of other ports.

A correspondent of The Bartow Courier Informant says: "A very exciting expedition is in progress now to recover the lost treasure from the quicksands of the Kissimmee river. The machinery is on the way and by the time this paper is read it is expected that the treasure will be in the hands of the finders. It is claimed that the paymaster's box of gold fell from a raft in the year 1865 and was never recovered though searched for diligently. Lately two of our fellow-townsmen have evidently located this lost box of gold and think they will shortly be in possession of a fortune. Officers and men of the Indian war service claim that this box was lost and never recovered. We will say more of this after later developments."

Just south of the Caloosahatchee river, opposite the lands of the McAdow turpentine company, there has been discovered an immense deposit of metallic pigment, said to be 95 per cent proof, which is shortly to be developed by some Tampa gentlemen, who claim that they have a great fortune in this property. The deposit is said to be the finest material in the world for red and yellow paint; that, in fact, it is almost pure paint of the most valuable kind. Thus are new additions being constantly made to the resources of Florida to prove the unrefuted and undisputed claim that this State, in the matter of attractions, advantages and resources, surpasses any other territory of equal area on earth.—Punta Gorda Herald.

Sunday night a colored woman was brought in from Shaws Camp and carried up to Dr. Alexander's office. The doctor was told that she had been shot four times and was dangerously wounded. The woman's groans indicated that she was suffering intensely. The doctor got busy and made a hurried examination, but found no wounds. He then made a very careful examination, but with the same result; the woman was not struck by any of the bullets fired at her, but imagined that she had been shot almost to pieces. She had some bruises on her body, the result of blows, inflicted probably in a fight at the camp. When she was told that none of the bullets had struck her she gave a demonstration of lightning transformation and in a moment became the

20,000 TELEGRAPH OPERATORS NEEDED

Young Men Prepare Yourselves for Good Positions.

On account of the new eight-hour law passed by Congress in the interest of telegraphers, and also on account of so many new railroads being built and old lines extended, an unusual demand for operators has been created. Conservative estimates have placed the number of additional operators that will be required during the next ten months at approximately 20,000.

YOUNG MEN, NOW IS YOUR OPPORTUNITY! Enroll in our school NOW and in only four to six months we will have you qualified for splendid positions. Telegraph Operators receive from \$50.00 upwards. Our school has been established twenty years; its equipment is perfect; instruction thorough and practical; positions positively guaranteed our graduates. Board in Newnan is very cheap; the town is healthy and the people are cordial. Two Main Line Railroad Wires run into our school rooms. No other school in the United States has such up-to-date and practical facilities for the benefit of its students. Write at once for free, descriptive literature.

SOUTHERN SCHOOL OF TELEGRAPHY NEWNAN, GEORGIA.

Remarkable Story

The story of Mrs. Matilda Warwick, of Kokomo, Ind., as told below, proves the curative properties of that well-known female remedy, Wine of Cardui. Mrs. Warwick says:

TAKE CARDUI

It Will Help You

"I suffered from pains in my head, shoulders, limbs, side stomach low down, dizziness, chills, nervousness, fainting spells and other female troubles. I was almost dead. Three doctors did not help me. At last, I took Cardui, and with the first bottle obtained relief. Now I am cured. But for Cardui, I would have been dead." Try Cardui.

AT ALL DRUG STORES

most active member of the party. She tripped down the street at a gait that gave her companions trouble to maintain.—St. Augustine Record.

R. L. Mills, who owns a nice orange grove west of the city, is a great believer in the fertilizing properties of the loggerhead sponge and he is constantly making experiments with it. Yesterday he brought in a large lighter load of sponges and will have them mixed with other things to put around the trees. It has long been known that the loggerhead sponge was rich in animal matter and on the keys the farmers have made use of them for many years in the cultivation of their crops. Near Cape Florida, and in fact all along the ocean beaches, they can be found in inexhaustible quantities. Mr. Mills is confident that the use of the sponges as a fertilizer for citrus trees will become general as soon as the owners of groves find out how beneficial they are to all trees and plant life.—Miami News-Record.

A Polk county correspondent of The Punta Gorda Herald makes a novel suggestion for the abolition of taxation, at the same time doing away with the annoying campaigning made necessary by the primary election plan of nominating. In view of the immense amount of money spent in the late primaries, he suggests that all the offices be auctioned off to the highest bidders for cash and the money be turned into the State treasury to pay off the State debt and the current expenses of government. As there are some 500 State and county offices he thinks that they would bring enough money, if sold at auction, to obviate the necessity for taxation. And the candidates would be saved time, trouble, traveling expenses and mutual tongue-lashing. But if this were done, says The Herald, the people would miss lots of fun, including the glorious privilege of voting, and they might also be robbed mercilessly in ways they wot not of.—Times-Union.

Evidences of Plot.

New York, July 24.—With another witness found who alleges that she was approached with a proposition to give false evidence against Frank J. Gould, the young millionaire, who is being sued for divorce by his wife, evidence of an amazing plot, swiftly accumulates. The district attorney's office promises yet more startling revelations than those already made public. The new witness is Miss Blanche Hale, a hairdresser, who lives at the Hotel Lincoln, and who has a number of fashionable patrons.

Was in Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refrain from stimulants. J. W. McCollum & Co.

A Dip or Spray for Cattle

BY JOHN M. SCOTT
The Florida Agricultural Experiment Station

Perhaps in no section of Florida are the cattle free from animal parasites. Every farmer, whether he owns one animal or one hundred, ought to be interested enough to protect his animals from the injurious effects of these parasites. We have been using at the Experiment Station for the past year a dip which has proved quite satisfactory. The formula was prescribed by Dr. Nelson S. Mayo, and is as follows: White arsenic, two-fifths pound; Sodium carbonate (crystals), one and one-eighth pound; Yellow soap, one and one-eighth pound; Pine tar, one-half pint. Dissolve the arsenic by holding it for half an hour in one gallon of water. Add the dissolved arsenic to five gallons of water. Shave the soap, mix it with the soda, and dissolve the mixture in one gallon of water. When dissolved pour in the tar, pouring in slowly in a fine stream, and stirring meanwhile so as to get in solution. Then mix it with the arsenic solution, and add water to make twenty-five gallons in all.

This is to be used as a dip, spray, or wash. It loses but little by age. The solution not only kills the ticks, but also kills all other animal parasites with which it comes in contact. It may be applied either with a brush or a sprayer, or it may be put in a dipping-tank through which the animal is passed.

Injury by Ticks—One of the worst parasites with which we have to deal is the cattle tick, which causes Texas or splenic fever. The loss among native stock from this disease is quite heavy; but perhaps most of the loss is caused not by fever, but by the heavy drain upon the animal's system from the large quantity of blood taken by the ticks. One tick consumes only a small quantity; but the continued feeding of several thousand ticks upon one animal soon exhausts its constitution and vitality. This is especially true of young animals, such as calves from six weeks to one year old—a period when they ought to be making their best development and growth. If at this time they are feeding several thousand ticks, instead of growing and developing as they should they will actually become smaller. The young animal once stunted in growth will never develop as it would have done, if it had received proper care and treatment from the first. Besides suffering this loss of blood, tick-infested cattle suffer continuously from irritation and injury of the skin. The tick when attaching itself to the animal's body punctures the skin. The puncture is soon surrounded by an area of intense inflammation, which results in the formation of readily visible scabs.

Loss of Milk—The injury to the livestock owner by the ticks is not confined to the loss of blood, and the irritation of the skin caused to his cattle. It has been estimated that the loss to the dairyman caused by the cows being heavily infested with ticks is equal to one quart of milk a day for each cow. This loss amounts in a year to no less than 275-300 quarts (70 to 75 gallons) of milk for each cow. This means a yearly loss of \$20-\$25.

Much the same is true of cows on the range when nursing calves. The cow has to feed the ticks. Hence, if the ticks abstract the equivalent of one quart of milk a day from dairy cattle, doubtless they reduce in some similar proportion the milk yield of the range cow, whose calf must lose that amount, and the calf likewise suffers a corresponding drain from its own ticks. How then can we ex-

pect our cattle raised in tick-infested sections to develop as they ought to develop?

Eradication of Ticks—Of course the best solution of the problem is the eradication of the ticks, and this could be accomplished if every live-stock owner would co-operate with other live-stock men. It would of course follow that cattle from other tick-infested States would not be allowed to be shipped into Florida. It seems, however, at present that Florida may be the last State in the Union to thoroughly eradicate this pest.

Spraying and Dipping—Perhaps the next best method will be for each farmer to keep the ticks under control by constant spraying or dipping. There are a number of proprietary dips upon the market which are very good when properly applied; but the greatest drawback to the proprietary dips is their expense. Most of these preparations cost from \$1-\$1.50 a gallon, and one gallon makes about twenty gallons of dip; so that the dip costs from five to eight cents a gallon. This is a considerable expense. There are, however, several good dips (one of which is given above), which the farmer himself can prepare at a much less cost.

TROLLEY CAR STRIKES AUTO.

Men Hurled from Car and One is Seriously Injured.

Chicago, Ill., July 23.—J. W. Wade, of Paris, Tex., was seriously injured, and an automobile belonging to B. F. Judkins, president of the Judkins company, furniture manufacturers, was wrecked Wednesday when a West-bound Thirty-fifth street car struck the machine at Thirty-fifth street and Michigan avenue.

Judkins, who had been entertaining Wade during his stay in Chicago, was driving the car at a rapid rate down Michigan avenue and did not see the approaching car. The force of the collision threw both men from the automobile. Judkins was not injured. Wade was picked up unconscious and taken to his rooms in the Auditorium Annex.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. This medicine is for sale by all druggists. Samples free.

Caught Negro in Bear Trap.

Birmingham, Ala., July 24.—Both-ered frequently by burglars who helped themselves in his establishment, J. R. Blair, who conducts a small store at Riley station, a suburb, set a bear trap in his place and early on Thursday morning was rewarded by the capture of a negro giving the name of Arthur McMillan. The negro was afterwards tied to a tree until a deputy was summoned and he was brought to the city and lodged in jail on several charges, including burglary. Several merchants in the vicinity of Riley and Hillman stations have purchased bear traps as a precautionary movement against future burglaries.

Stimulation Without Irritation.

That is the watchword. That is what Orino Laxative Fruit Syrup does. Cleanses and stimulates the bowels without irritation in any form. J. W. McColtun & Co.

Received by the Pope.

Rome, July 24.—The pope has received in private audience Rt. Rev. John A. Foster, Bishop of San Antonio, Tex., who greeted the pontiff on the occasion of his jubilee.

S.S.S. CONTAINS NO MERCURY

Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and he is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S., in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SUMMER NORMAL CLOSED ON FRIDAY

Resolutions Passed By Body of Teachers in Attendance.

ARE PLEASED WITH TREATMENT

About One Hundred and Seventy-five Attended Session, Which Proved Instructive and Entertaining for Them—Many Departed Friday.

The Teachers' Summer Normal, which has been in session for the past five weeks, closed its session here Friday. The term proved a very instructive one for the large number of teachers who took advantage of this training.

There were in the neighborhood of one hundred and seventy-five teachers in attendance, and the most of them returned to their homes Friday, with many kind remembrances of Gainesville and her people.

At the closing chapel exercises Friday morning, the following resolutions were unanimously adopted:

"As an expression of our profound appreciation of the opportunities for improvement and advancement afforded us in the establishment and maintenance of these summer schools for teachers, and in witness of our gratitude for the many favors we, the pupils of the Gainesville summer school, have received during the present session,

"Be It Resolved, That our sincere thanks are hereby extended—

"1. To State Superintendent Holloway and the State Board of Education for their interest in behalf of the teachers and children of the State in thus providing for a higher standard of professional qualification for teachers.

"2. To the Legislature for its liberality, patriotism and foresight in providing for the maintenance of these schools, and especially for the appropriation to assist in defraying the expense of attendance upon them, whereby many—and just those very ones most in need of such—have been enabled to avail themselves of the advantages and opportunities that would otherwise have been denied them.

"3. To those far-seeing and liberal

county boards of public instruction that shared with their teachers the expense of attendance upon the school. May their thoughtfulness and generosity find, next year, many imitators.

"4. To the generous and hospitable people of Gainesville who so kindly took us into their homes and in unnumbered ways contributed to our comfort and pleasure; to the various church organizations of the city for their kind and appreciated interests in our happiness and welfare; to The Gainesville Sun for numerous courtesies and valuable assistance; to the University of Florida for use of valuable apparatus; and to Superintendent Kelley and the county board of Alachua county for use of High School building.

"5. To our principal, Dr. Yocum, and his able assistants for their untiring efforts in our behalf.

"6. To the transportation lines of the State for appreciated courtesies.

"Be It Resolved, also, That we extend to State Superintendent Holloway our congratulations upon the great and gratifying success of his first administration, now drawing to its close, and in which he has more than triumphantly justified the hopes and expectations of his friends, and has carried forward so smoothly but persistently and forcibly the movement for educational progress and reform so successfully inaugurated by his illustrious predecessor. That we recognize in him a capable, faithful, conscientious and zealous educational leader, and hereby pledge to him our hearty sympathy and support in all his efforts looking to the promotion of the interests of public education.

That we are in full and hearty accord with him in his determination and efforts to vitalize and extend the influence of our public school system by bringing it into closer touch with the home and the industrial system—the two great and fundamental institutions of civilized society, and that in this great undertaking we pledge him our loyal and zealous co-operation.

"Be It Resolved further, That a copy of these resolutions be furnished The Gainesville Sun, The Times-Union and The Florida School Exponent, with request to publish.

"MAUDE NORWOOD,

"ELMA GEIGER, Com.

"GUS WILDER, Chairman."

She has just entered her second year of municipality. Much progress has been made during her first year, and it is hoped that the second year will show even greater strides.

One thousand cases of taxation have been brought to light by an investigation conducted by City Attorney Rowland since his selection into office a few weeks ago.

Sunday school teachers of Hillsborough county have organized a county association. The next state convention will be held at Tampa, February 9, 10th and 11th.

Some weeks many of the citizens of Key West have been writing letters against the mail service, and a number of replies have been received from members of Congress and the post office that some action will likely be taken soon.

Eustis Lake Region says: The Palm Beach is to have the best school building in the state. It will be of concrete and when completed will have cost \$75,000. The school will consist of nine acres laid out for athletic sports.

On the Schantz electrical plant at Daytona is rapidly progressing. About sixty men are steadily working on the building. The building will be a large brick building, with mammoth boilers of 150-horsepower each will be installed.

Last Sunday morning the Lake-Deason Company's saw, planing and mill was destroyed by fire, the cause of which is unknown. The mill was located between Lake Parker and Lake Deason, a few miles north of Deason. The loss was total, there being no insurance.

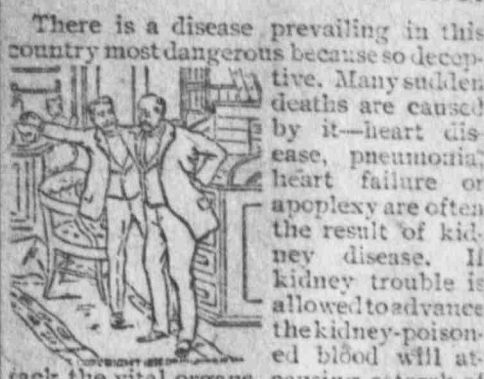

The police department is about to begin the task of compiling a directory of the city of St. Augustine. The idea of making a sanitary inspection of the city. It is believed that the directory will show no material increase in population over the previous year, but it will show a marked improvement in general sanitary conditions.

Saturday morning, Edward W. New Bedford, Conn., who had been weary of the vicissitudes of life, decided to end it all by drowning himself in the ocean. He was helped by Mr. Knox and later was raised and a ticket purchased to send him back East.—Orlando Sentinel.

M. Raymond, vice-president and manager of the Mallory line of steamships, on a recent visit to Tampa gave information that in the near future an additional ship will be added to the line touching at Tampa. Mr. Raymond states that he is much pleased with the volume of business done at Tampa in the initial month of the season.

B. D. Gibbons of Crystal River has erected a large oyster cannery on Gibbons Island, in the Gulf of Mexico.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized; it stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

sight of Crystal River, and expects to have same in operation by November 1st. The capacity will be 3,000 cans a day and will give employment to about 25 persons. He will also can fruit and vegetables in their season if there is enough produce to warrant same.

Limes are beginning to move in large numbers now from the Florida keys. The most of the fruit is disposed of to the commission men of Miami. The fruit is selling well and the growers are getting a good price for it. While trade in limes is a comparatively new business, it continues to grow each year and will in the near future be one of the principal crops of that section of the state.

Titusville seems to be in the midst of a building boom. Besides a new ice factory and a new laundry in course of construction, the jail, which was partially destroyed by fire a few weeks ago, will be rebuilt at a cost of \$10,000. The building will be constructed of brick. And to add to the rest the Standard Oil Company is erecting a large oil tank with a capacity of 15,000 gallons and a gasoline tank of the same capacity.

A large acreage is being planted in sweet potatoes in this section this season, and if the rainy season continues the acreage will be larger than for several years past. Fifteen years ago sweet potatoes brought from thirty to sixty cents a bushel. Now they bring from eighty cents to one dollar and a half a bushel and they are always scarce in this market. There is good money in sweet potatoes at fifty cents per bushel.—New Smyrna Breeze.

James Evans, deputy marshal, acting as city dog-catcher in Jacksonville, while in the act of taking an unmuzzled dog to the pen was attacked by a mob of negroes at the corner of Beaver and Davis streets in Jacksonville Wednesday night. James Crosby, one of the mob who struck at the officer with a billiard cue, was shot by the officer and killed. After hearing all of the evidence the jury discharged the officer, the verdict being justifiable homicide.

The New York Maritime Register has the following to say in regard to the Fernandina harbor: "As the furthest South deep-water port on the Atlantic Coast, and the nearest to the great channel of navigation flowing out of the Gulf of Mexico, Fernandina offers the greatest advantages to Southern steamship lines as well as to the Western and Southwestern railway system. It has depth of water, expanse and depth of harbor, second to no port on the South Atlantic Coast."

On Monday, Elsie, the five-year-old daughter of Mr. and Mrs. D. Heasley of Delray fell backward into a tub of boiling water and was only saved from death by the fact of there being a lot of clothes in the tub. As it was she received terrible burns and scalds

and is in a serious condition. The accident was caused by one of the boys firing a cracker and his sister jumped back to escape the explosion and jumped into Elsie, tipping her over backwards into the tub which had just been filled with boiling water from the stove.—West Palm Beach Sun.

With the determination of holding Florida products for Florida ports, a company with a capital stock of \$3,000,000 is now being formed in Jacksonville. The board of trade with a membership of 522, at a meeting when over 300 were present, unanimously indorsed the project and appointed a committee to solicit subscriptions for stock. This committee consists of fifty progressive citizens and their possessions represent many millions of dollars. The railroad commission has given assurance that there will be no discriminating rates in favor of other ports.

A correspondent of The Bartow Courier Informant says: "A very exciting expedition is in progress now to recover the lost treasure from the quicksands of the Kissimmee river. The machinery is on the way and by the time this paper is read it is expected that the treasure will be in the hands of the finders. It is claimed that the paymaster's box of gold fell from a raft in the year 1865 and was never recovered though searched for diligently. Lately two of our fellow-townsmen have evidently located this lost box of gold and think they will shortly be in possession of a fortune. Officers and men of the Indian war service claim that this box was lost and never recovered. We will say more of this after later developments."

Just south of the Caloosahatchee river, opposite the lands of the McAdow turpentine company, there has been discovered an immense deposit of metallic pigment, said to be 95 per cent proof, which is shortly to be developed by some Tampa gentlemen, who claim that they have a great fortune in this property. The deposit is said to be the finest material in the world for red and yellow paint; that, in fact, it is almost pure paint of the most valuable kind. Thus are new additions being constantly made to the resources of Florida to prove the unrefuted and undisputed claim that this State, in the matter of attractions, advantages and resources, surpasses any other territory of equal area on earth.—Punta Gorda Herald.

Sunday night a colored woman was brought in from Shaws Camp and carried up to Dr. Alexander's office. The doctor was told that she had been shot four times and was dangerously wounded. The woman's groans indicated that she was suffering intensely. The doctor got busy and made a hurried examination, but found no wounds. He then made a very careful examination, but with the same result; the woman was not struck by any of the bullets fired at her, but imagined that she had been shot almost to pieces. She had some bruises on her body, the result of blows, inflicted probably in a fight at the camp. When she was told that none of the bullets had struck her she gave a demonstration of lightning transformation and in a moment became the

20,000 TELEGRAPH OPERATORS NEEDED

Young Men Prepare Yourselves for Good Positions.

On account of the new eight-hour law passed by Congress in the interest of telegraphers, and also on account of so many new railroads being built and old lines extended, an unusual demand for operators has been created. Conservative estimates have placed the number of additional operators that will be required during the next ten months at approximately 20,000.

YOUNG MEN, NOW IS YOUR OPPORTUNITY! Enroll in our school NOW and in only four to six months we will have you qualified for splendid positions. Telegraph Operators receive from \$50.00 upwards. Our school has been established twenty years; its equipment is perfect; instruction thorough and practical; positions positively guaranteed; our graduates. Board in Newnan is very cheap; the town is healthful and the people are cordial. Two Main Line Railroad Wires run into our school rooms. No other school in the United States has such up-to-date and practical facilities for the benefit of its students. Write at once for free, descriptive literature.

SOUTHERN SCHOOL OF TELEGRAPHY NEWNAN, GEORGIA.

Remarkable Story

The story of Mrs. Matilda Warwick, of Kokomo, Ind., as told below, proves the curative properties of that well-known female remedy, Wine of Cardui. Mrs. Warwick says:

TAKE CARDUI
It Will Help You

"I suffered from pains in my head, shoulders, limbs, side stomach low down, dizziness, chills, nervousness, fainting spells and other female troubles. I was almost dead. Three doctors did not help me. At last, I took Cardui, and with the first bottle obtained relief. Now I am cured. But for Cardui, I would have been dead." Try Cardui.

AT ALL DRUG STORES

most active member of the party. She tripped down the street at a gait that gave her companions trouble to maintain.—St. Augustine Record.

R. L. Mills, who owns a nice orange grove west of the city, is a great believer in the fertilizing properties of the loggerhead sponge and he is constantly making experiments with it. Yesterday he brought in a large lighter load of sponges and will have them mixed with other things to put around the trees. It has long been known that the loggerhead sponge was rich in animal matter and on the keys the farmers have made use of them for many years in the cultivation of their crops. Near Cape Florida, and in fact all along the ocean beaches, they can be found in inexhaustible quantities. Mr. Mills is confident that the use of the sponges as a fertilizer for citrus trees will become general as soon as the owners of groves find out how beneficial they are to all trees and plant life.—Miami News-Record.

A Polk county correspondent of The Punta Gorda Herald makes a novel suggestion for the abolition of taxation, at the same time doing away with the annoying campaigning made necessary by the primary election plan of nominating. In view of the immense amount of money spent in the late primaries, he suggests that all the offices be auctioned off to the highest bidders for cash and the money be turned into the State treasury to pay off the State debt and the current expenses of government. As there are some 500 State and county offices he thinks that they would bring enough money, if sold at auction, to obviate the necessity for taxation. And the candidates would be saved time, trouble, traveling expenses and mutual tongue-lashing. But if this were done, says The Herald, the people would miss lots of fun, including the glorious privilege of voting, and they might also be robbed mercilessly in ways they wot not of.—Times-Union.

Evidences of Plot.

New York, July 24.—With another witness found who alleges that she was approached with a proposition to give false evidence against Frank J. Gould, the young millionaire, who is being sued for divorce by his wife, evidence of an amazing plot, swiftly accumulates. The district attorney's office promises yet more startling revelations than those already made public. The new witness is Miss Blanche Hale, a hairdresser, who lives at the Hotel Lincoln, and who has a number of fashionable patrons.

Was in Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refrain from stimulants. J. W. McCollum & Co.

What Has Happened and What is Going to Happen Told in Short Paragraphs So That "He Who Runs May Read" It in The Sun.

From Friday's Daily Sun.

Plank's Chill Tonic is guaranteed to cure chills, fever, colds and lagrippe. Price 25 cents.

Mrs. Solomon of Apalachicola is in the city, the guest of the family of Dr. J. F. McKinstry, Sr.

B. F. Hampton departed yesterday for a business and pleasure trip of a few days to Washington City.

Andrew Feaster, one of the successful farmers of the Windsor section, was in the city on business yesterday.

Mrs. F. C. Reinhart of Wade arrived in the city yesterday and will spend a few days here as the guest of friends.

Mathew Dickinson left yesterday for Daytona Beach, where he will visit his sister, Mrs. D. L. Graham, for the next few days.

John Shaw, Frank Cauthen and John Cauthen, all of LaCrosse, formed a trio of energetic farmers who visited the city yesterday.

Mrs. W. H. Powell and children of Archer, who have been visiting relatives in the city for the past few days, returned to their home yesterday.

Miss Fannie Harville, one of the accomplished young ladies of Alachua, is in the city for a few days on a visit to the family of J. H. Spence, South University street.

Mrs. Effie Sullivan and little child departed yesterday for Daytona Beach, where they will spend the next few weeks taking in the cooling breezes of Old Ocean.

Attention is directed to the change in the advertisement of The Dutton Bank. This is one of Gainesville's oldest institutions and it is substantial and has a large patronage.

J. E. Pultz, the accommodating cashier in the freight department of the A. C. L., is off on his annual vacation. He is spending the time principally in New York State.

Miss Kate Tomkies departed yesterday for Virginia, where she will spend some time. She will return in time, however, to take up her studies as teacher in the Sanford school.

Col. I. E. Webster left yesterday for Floral City, where he goes to look after some business matters. From there he will proceed to Ormond and spend several days with his wife.

Mrs. J. Maxey Dell, who has been absent for the past two weeks at Daytona Beach, returned yesterday. She was delighted with her stay, which proved both beneficial and pleasant.

Hon. John R. Willis, wife and children, of Williston, were in the city yesterday, having come for the purpose of attending the funeral of Mrs. Norton, who was a sister of Mrs. Willis.

Clerk of the Court S. H. Wienges left yesterday for Jacksonville. From that city he will proceed to Fort George, where he will visit his wife, who is spending several weeks at that point.

John Harrell of LaCrosse and brother, Wm. Harrell of Bradford, were visitors to Gainesville Thursday, bringing with them chickens and sirup, which found ready sale in the local market.

W. J. McCormick and family, who have been absent for the past few weeks visiting at Kingsley Lake, near Starke, returned to their home in this city yesterday, much to the delight of their many friends.

E. C. Spencer, one of the progressive farmers of Alachua, was among the visitors to the city yesterday. He reports that the crops are in a flourishing condition, considering the seasons they have had to contend with.

Mrs. W. H. Mooty and children of East Gainesville left yesterday for Kingsley, S. C., where they will spend the next few weeks. They were accompanied as far as Charleston by Percy Moody, who will stop over in that city.

Mrs. M. A. Clouts and children, who have been visiting friends at Tacoma for several days past, were in the city yesterday on their way to

Jacksonville, where they will meet Rev. Clouts and proceed to their home at Key West.

Miss Estelle Epperson, who has been in the city for the past two months, stopping with the family of Judge and Mrs. Syd L. Carter, will leave today for her home at Bronson. She is one of the efficient teachers in the Bronson High School.

Mrs. M. B. Saunders departed yesterday for High Springs, where she was called on account of the illness of her sister, Mrs. S. B. Phifer. It is hoped that she will find the condition of the patient much improved, and a speedy recovery is hoped for by her friends here.

Advices received from Mrs. W. H. Robertson and her two daughters, Misses Emma and Gertrude, are to the effect that they are now located at Rutherfordton, N. C., up in the mountains, where they will spend several weeks before proceeding to other points of interest.

Miss L. K. Pierson of Danville, Va., arrived in the city yesterday from Daytona, where she has been spending some time visiting her brother, Dr. J. H. Pierson. She will visit the family of her uncle, J. H. Jarvis, for a few days before proceeding to her Virginia home.

T. J. Cone of Raleigh was transacting business in the city yesterday. He has had his mill closed down for the past few months, but is still keeping his turpentine business running. Mr. Cone hopes that the demand for lumber will soon increase sufficiently for all the mills to start business.

W. T. McLendon, the watermelon man of Alachua, was here yesterday. He says that the dry weather interfered a great deal this season with his melon business, and that he only shipped thirty-five cars during the season. Prices were very unsatisfactory and he hardly cleared expenses on the crop.

Prof. J. L. McGhee, son of Mrs. B. E. Tallant of this city, who has been teaching in Columbus, Ga., for several years, has just received an appointment as teacher of science in the Emory and Henry College of Virginia. Prof. McGhee has many friends and acquaintances in this section to whom this will prove gratifying news.

Today closes the Summer Normal. This term has been most pleasant and profitable. Very many of the teachers in attendance have had their salaries materially raised. The examinations for State primary certificates begin this morning and conclude tomorrow. The examination for senior high school certificates will begin next Monday morning.

From Saturday's Daily Sun.

W. M. Harrold of Brooker visited the city yesterday.

W. T. Roberts of Rochelle paid the city a visit on Friday.

S. L. Turner, one of the truckers of near River Styx, was in the city Friday.

J. K. Feaster of Rochelle was among the visitors to the county capital Friday.

Mrs. W. L. Jackson of Archer was among the shoppers visiting the city Friday.

Mrs. F. B. Hester and daughter, Miss Louise, of Evinston, were among the shoppers visiting the city yesterday.

R. S. Bradley, one of the substantial farmers of Wacahoota, was transacting business in Gainesville yesterday.

E. L. Babbitt, one of the enterprising citizens of Waldo, was greeting his many acquaintances in the city yesterday.

Read the change in the advertisement of the Gainesville National Bank, in which they ask you to "Drop in sometime."

Mrs. M. A. Easterlin left yesterday for High Springs, where she will spend the next few days on business and pleasure combined.

Prof. F. H. Ellis, who has been attending the Summer Normal in this city, departed yesterday for Alachua, where he will spend a few days.

Mrs. Knapp of Chicago, who has been in the city for the past few weeks visiting friends, departed yesterday for her home in the Western city.

Mrs. Laura Smith, who has been in the city for some time visiting relatives, left yesterday for her home in Bradford county, near Worthington Springs.

Sheriff L. W. Fennell left yesterday for Hawthorn and Campville, where he goes on business. His

THE LITTLE STORE WITH THE BIG STOCK.

GAINESVILLE, FLORIDA

deputy, I. T. Walker, was sent South on a similar mission.

H. L. Rosenberger, the progressive merchant of Kirkwood, was in the city yesterday. He says the farmers of his section are taking advantage of the fair weather and cutting their hay.

E. A. Osborne, member of the firm of the D. B. Morrison Co. of Morris-ton, one of the most extensive lumber concerns in Levy county, was transacting business in Gainesville yesterday.

S. C. Dell, one of the prominent merchants of Alachua, was meeting his friends in the city yesterday. He is the popular postmaster at that place and reports business good in all branches.

Mrs. H. Maddox of Archer was in the city yesterday. Her husband is toe manager of the foundry and machine shops at that place, and being conveniently located it is always rushed with work.

Miss Hattie English of Tacoma, who is teaching the summer school at Union Grove, was in the city yesterday en route to her home, where she will spend a week or so with her parents before returning to her duties.

Dr. W. C. Johnson of Micanopy was among the prominent Micanopy citizens who visited the county capital Friday. He says that the condition of A. H. Emerson is still unchanged and that there is very little hopes of the patient recovering.

The sawmill and crate business of the Standard Crate Co. have closed down for the season. E. J. Baird, the manager, says that they expect to start up about the first of September, when he will put on a large force in the crate department.

Mr. and Mrs. S. A. Ledbetter and little daughter, Marguerite, will leave today for Troy, Ala., where they will spend the remainder of the heated term. They will be accompanied by J. E. Ledbetter, who will also visit relatives at that place.

Mrs. T. J. Nixon and two daughters, who have been absent from the city for several days, returned to their home yesterday. They have been visiting at Cedar Key and were delighted with the pleasant breeze always afforded at that place.

Mr. and Mrs. E. A. Cooper, after a delightful sojourn of two weeks at Daytona Beach, have returned to their home in this city. They report having a pleasant vacation and were loath to leave the delightful breezes and excellent bathing afforded there.

Mrs. M. B. Saunders has returned

from High Springs, where she went to visit her sister, Mrs. S. B. Phifer. She found the patient much improved and says that she will come to Gainesville to spend awhile as soon as she has sufficiently recovered to be able to travel.

F. W. Thomas and little son, Edgel, of Alachua, were visitors to the city yesterday and made a pleasant call at this office. He has finished the erection of a store building at Bland for Mr. Matthews and the latter will at once stock it up with a full and complete line of merchandise.

Miss Annie Collins, who has been the efficient teacher in the Micanopy school for the past three years, and who has again been appointed as principal, was in the city yesterday en route to her home at Waycross, where she will visit her parents before returning to her duties later in the fall.

The street on the south side of the Seaboard railroad, which has been such a source of annoyance to the citizens in that section, is being repaired with sand by being raised. Chairman Burnett will have the thoroughfare filled up the entire distance, and when finished it will be in first-class condition.

H. C. Sealey, who has recently been appointed as county enumerator, was in the city from his home at Alachua yesterday. He came down for the purpose of qualifying and to make preparations to begin his duties at an

early date. It will be his to collect the statistics on live milnes, agriculture and farm general.

Jesse Smallwood of Ellzey the city yesterday on his LaCrosse, where he will visit his relatives. He was nursing a sore and wrist as the result of a dent sustained in the cedar Ellzey. While operating one tables which cuts the cedar small slats his hand was caught in the saws and ground up like meat before the machine stopped.

Capt. W. H. Sanders of Starburg was in the city yesterday. He is the father of a daughter, Mrs. W. C. Johnson, who came to this county some years ago and says the only in this city at that time was gin establishment located on now known as the Beville place. After residing in different parts of the county he removed to Starburg in 1895, and has since made it his home.
